

Lydia Baker

Lydia says:

I am a Photographer based in London/Margate. I am interested in Analogue Photography and Curation. My Photography is from my series called My noble father, I do perceive here a divided duty they explore the various workspaces my father has around the house.

Highlighting the isolation of running a business from home and the effects this has on family life.

I have always gravitated toward Art and Photography. At school subjects like Math and English were difficult for me but in Art class, I was able to use my imagination and feel confident. This led to me studying Art and graduating with a BA in Photography.
