

Victoria Chikovani

Victoria says:

I'm an artist and textile designer who works with various fabrics to create stories that are inspired by nature and cultures. My batik series is an attempt to achieve a watercolour effect on silk, to carry a sense of lightness, beauty and movement of butterflies.

Works 1 & 2 are inspired by the Celtic and Indian cultures and historical textile techniques, while 3 & 4 are batiks on a butterfly theme.

"Dyslexic" means "Creative" to me, not only in the artistic area, but in every aspect of life, because this is a way of thinking that helps me find creative solutions. It helps me remember about the "non-standard" whenever the "standard" doesn't work.
